

Capital Cost Evaluation for Optimum Process Design of Cryogenic Air Separation

Diploma Thesis
by
Robert Pack

London, SS 2012

Table of Contents

List of Figures

List of Tables

1 Introduction

2 Air Separation Technology

2.1 Membrane Processes

2.2 Pressure Swing Absorbtion

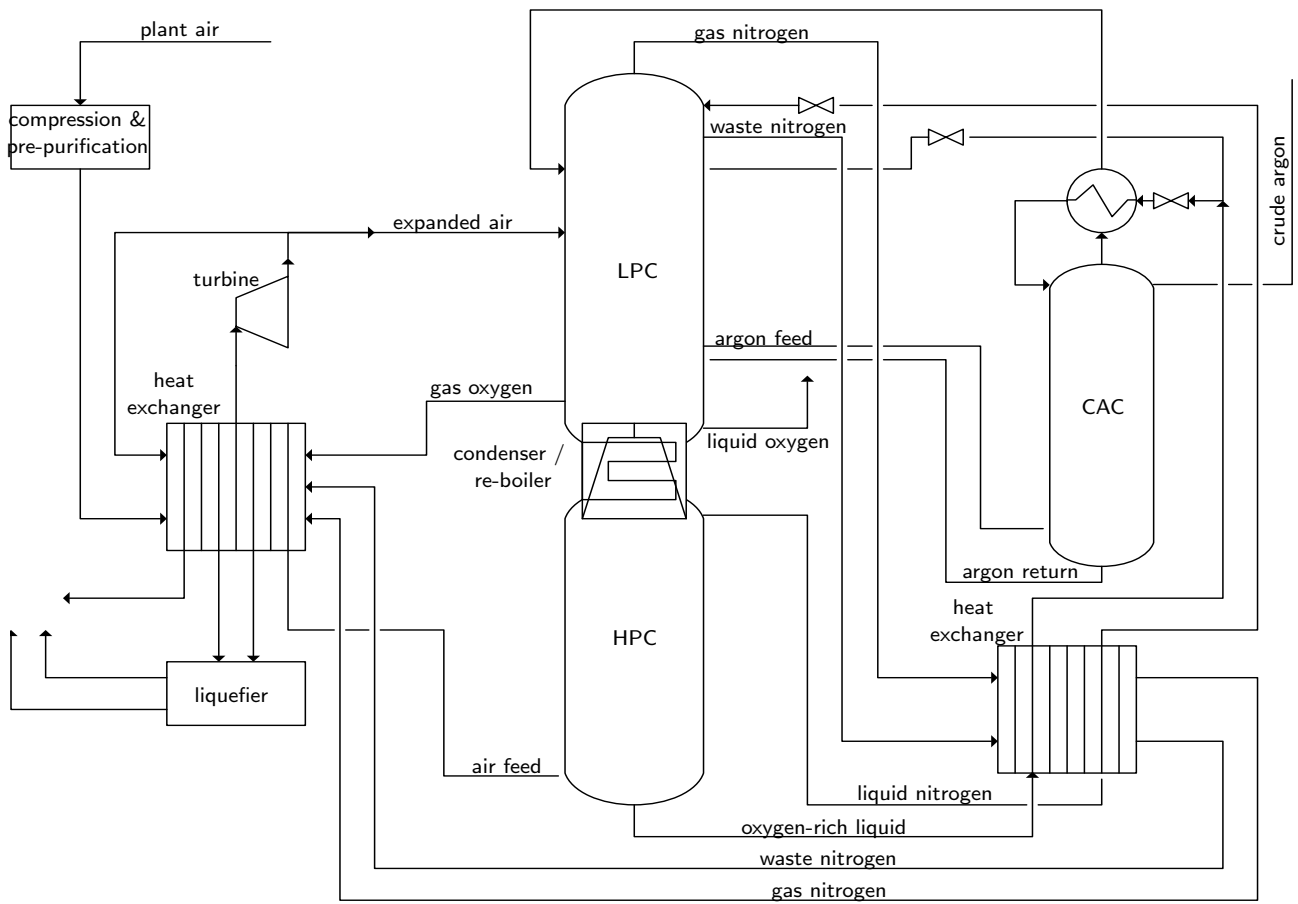

Figure 2.1: Schematic representation of the cryogenic air separation process.

3 Cryogenic Air Separation

3.1 Process Model

3.2 Uncertainty in Process Modelling

3.3 Capital Cost

4 Conclusion and Further Research
